Portfolio

### OBJECTIVE

Aspiring **Full Stack / MERN Developer** with hands-on experience in React, Node.js, Angular, and MongoDB. Passionate about building responsive web applications, integrating AI tools, and implementing payment solutions. Seeking an opportunity to contribute to high-impact projects while enhancing technical skills.

### EDUCATION

#### BSc Computer Science — School of Technology and Applied Science

2022 – 2025

CGPA: 6.8

#### 12th — GPHSS Kulanada

2016 – 2018

Kerala State Board

60%

#### 10th — JMHS Kodukulanji

2016

Kerala Board

80%

### PROJECTS

#### Learnify – LMS Platform — React, JS, JSON Server, Bootstrap, Axios

2025

- Responsive LMS with full CRUD operations using JSON Server REST APIs.
- Reusable React components, state management with Hooks, course listing, and search/filter functionality.

#### Mock.ai – AI Mock Interview Platform — MERN, Gemini AI

2025

- AI-driven mock interviews with real-time feedback.
- Secure authentication (Clerk) and payment integration (Razorpay).

#### AI Trip Planner — MERN

2024

- AI-based trip planner with dynamic itinerary generation.
- REST APIs with MongoDB backend and responsive React frontend.

#### Imagify – AI Image Generator — MERN

2024

- AI image generation platform integrated with Razorpay payments.
- Responsive React UI with RESTful API integration.

### INTERNSHIP

#### Luminar Technolab

Sep 2025 – Mar 2026

MEARN Stack Developer Intern

- Developed full-stack applications using MEARN stack; implemented REST APIs, CRUD operations, and responsive UI.

### TECHNICAL SKILLS

**Languages:** JavaScript, HTML5, CSS3

**Frontend:** React.js, Angular, Next JS, Bootstrap, Tailwind CSS

**Backend:** Node.js, Express.js

**Databases:** MongoDB, JSON Server

**AI Tools:** Gemini AI, OpenAI API

**Payments:** Razorpay

**Tools:** Git, GitHub, Postman, VS Code, Axios

### CERTIFICATIONS

#### MEARN Stack Development – Luminar Technolab

2026

#### Full Stack Web Development (MERN) – Udemy

2025

#### JavaScript & React Fundamentals – Coursera

2024

### ACHIEVEMENTS / ACTIVITIES

- Built and deployed multiple MERN/MEARN projects including LMS, AI Mock Interview Platform, AI Trip Planner, and AI Image Generator.
- Integrated AI tools (Gemini AI) and payment gateway (Razorpay) in real-world applications.
- Completed MEARN Stack Developer Internship at Luminar Technolab with hands-on project experience.
- Actively participated in web development workshops and hackathons focused on full-stack and AI applications.

### LANGUAGES

- English – Professional proficiency
- Malayalam – Native proficiency
